Using tools of logic, courage, and experience break the chains of denial that keep you bound. Uncover assumptions and fear-based models of what your future may bring. “Cherished Relationships”

Ebooks in English or German

This course is not targeting how to fix a failing marriage or how to find a desired partner. No matter what culture we begin with, as we grow and determine our view of relationships, experiences always become a fast track to spiritual growth and social development. While in relationships, if understood, knowledge about freedom, authenticity, comfort, and strife can be investigated using analogies, metaphors, divergent and convergent thinking.

Through storytelling and metaphors, access the systems offered to find your personal inner contradictions that disturb you from gaining cherished relationships. Open your mindset beyond any cultural self-definition. Like the Tao that can't be spoken, learn about forces and the field effects that register from one particular body/brain receiver to the corresponding experience of another. Open to create worlds that overlap and express beyond the ability of verbal expression.

Dynamic responses bring deeper exploration. Learn how to step into the cloak of clarification and build relationships you cherish. This is not gender or age or geographic or cultural specific. It is a way of anagogy. It begins with tenderness and effort. Treat yourself dearly to shelter and protect your own being. Give new forms of consideration to those with whom you desire to share. When you have undertaken this task and reached beyond selfishness or self-centeredness, you can begin this flight beyond words.

This course creates a map for the soaring of your human spirit and for your emancipated life on earth. Each month you will receive three tasks to practice for 28 days and an ebook for support and encouragement.

It is suggested you take this after
one or more of the five foundational courses (Foundational Study,
Continuing Students, Ongoing Students, Returning Students, or
Foundational Verities).

Prerequisite – muscle response testing skill
Attendance at a Sue Gurnee event on location or online.

Please note, there are no other projects involved.

This is a course that can bring new meaning
to interactions both near and far.

“Walking In The Path of Peace”

Ebooks in English or German

This 12-part excursion is designed to bring sovereignty to hidden conflicted areas inside where destructive patterns may keep you from supportive and contented inner peace.

Chapters in this course include the workbook study of:

Abilities • Awareness • Closeness • Creative consciousness • Development •
Fear • Images and Imagination • Inner attitudes • Intuition • Truthfulness •
Outer influences • Transformation

To maintain a freedom from daily disturbances and to build tranquility into actions, risk to boldly walk in a path of peace.

In this way it is possible to access a stress-free state of security and calmness. It is on this path where all things have meaning. Instead of automatic defense responses, access inner liberty to integrate intrinsic inner congruency.

This power aids your ability to manage conflict. Any absence of inner conflict can bring comfort to your physical system so that behaviors follow with Principled Consciousness.

“Living the Paradigm of Bioenergetics A Tour of Expanding Perceptions”

Ebooks in English or German

Exploring the Paradigm of Bioenergetics seems mercilessly difficult. For example, even with the word ‘paradigm’, ordinary effort can be misconstrued. For our purposes, a paradigm is a typical example or a pattern of something. Consider a paradigm like a model.

The word paradigm comes from a Greek verb, Paradeiknynai- to show side by side. For our context, the bioenergetic paradigm is an example, a model, a principle, a prototype and/or a blueprint.

Codes to bring the sensation, the perception, the awareness, and bioenergetic understanding into accurate insight are offered in 12 themed chapters to widen the vocabulary of unseen forces. With practice, you can guide your awareness to tap into overlooked or protected areas inside that may minimize your intuitions.

This course is open to anyone who desires to delve more deeply into the workings of telepathy and intuitive wisdom.

There is no prerequisite for this course.

Mutuality Training

Ebooks in English or German

If you do not understand yourself, it is difficult to comprehend what is taking place around you. After years of research and testing, Dr. Gurnee has systematized the importance of mutuality into six stages with identifiable patterns. These can be observed in others and understood inside.

Since mutuality is necessary for the process of any form of creation, learn how to find the ingredients inside to build interactions with qualities that hold genuine and supportive elements.

A two-year comprehensive study course, the “Six Stages of Mutuality” as taught by Dr. Gurnee, is designed to widen your understanding of the powers you possess during both professional and social interactions. Whether you are in the arts, in service, science, or other interaction-filled occupations, increase your interpersonal relationships.

Participants learn how to widen opportunities that can open and expand understanding with courage, reason, and goal-directed flexibility. Monthly ebooks and individual coaching by Dr. Gurnee are included.

(This training can be combined into a one-year 24 module course with the permission of Dr. Gurnee)

Year-long Courses Fields of Understanding 2026

Mutuality Keys 1–3 (Year 1)

Taught in sets of three platforms, Year 1 establishes the first three key trainings. These are directed toward collaborative relationships. Chart how your participation and contributions evolve into desired or undesired consequences. This training can be used daily with family, at work, or within your own personality. Progress through these stages can be plotted using the keys of understanding offered in this 12 -module training. These three stages (Keys 1–3) help you practice the qualities of participation, creativity, and the subtle aspects contained in goal-directed accomplishments.

Mutuality Keys 4–6 (Year 2)

(Prerequisite for this course: Mutuality Keys 1-3)

If you do not understand yourself, you will have difficulty understanding others. If you do not love or respect yourself, it is almost impossible to love or respect what you encounter. In these next three Keys, capture the seemingly fleeting awarenesses of your operating system. Notice how subtle forms of defense can hinder the development of first three levels of any relationship. Learn how satisfactory outcomes can be prematurely diverted. When the first three keys have become valued, then a gateway can open to sustained appreciation and sincere forms of communication. Trust-filled collaborative associations can easily follow using Mutuality Keys 4-6. Three stages (Mutuality Key 4–6) for sustained collaboration using communication, trust, caring and assurance – to enhance your personal relationships, team support, long-term associations, and family evolution.

Establishing A Unified Direction

Ebooks in English or German

“Unified Direction” is achieved when both conscious and unconscious thoughts are free of inner conflict. Until that time, achievements are hindered by contradictory attitudes, concepts, and beliefs that disperse energy and scatter objectives.

Unconscious thoughts are classified as involuntary. These often hold fear-based false conclusions that over-ride and determine the orientation of the conscious voluntary thoughts and reactions. This course is influential in its manner to systematize and uphold mutuality between the involuntary and voluntary parts in one’s operating system. Throughout the year, build new pathways of confidence and clarity with easy-to-follow charts and personal worksheets. Each month, students receive elegantly adorned information-packed charts and worksheets.

This brilliant one-year course is offered to inquisitive learners and those with previous training at Fields of Understanding. Scheduled throughout the year are telephone consultations and facilitation by Dr. Gurnee.
